

Services Billed Separately

The physician services provided in the hospital are not included in your hospital charges. Physicians who provide services at Claxton-Hepburn Medical Center may or may not participate in the same health plans. They include affiliated physicians, radiologists, anesthesiologists, and lab work. Please check with the physician who arranges your hospital services to determine the plans in which they participate.

The names, addresses and contact information for physicians whom CHMC employs, as well as groups of physicians and providers with whom CHMC contracts to provide services such as anesthesia, pathology, and radiology, are listed below. Please refer to these lists to contact any provider listed.

Patients may receive additional billing from the following:
